

MiChem Dynamics
— LEADING CHANGE

COMPANY PROFILE

"Excellence Without Borders: MiChem Dynamics offers its renowned services globally, ensuring quality everywhere."

ABOUT US

Established in 2014 by visionary entrepreneurs Santie van Niekerk and Vinay Moodley, MiChem Dynamics is a dynamic organization rooted in a shared dream of saving lives, changing lives, and creating a better future. Both founders are experts in microbiology, auditing, and quality management systems, bringing a wealth of knowledge and experience to the company.

MiChem Dynamics was built on a blueprint philosophy of prioritizing life-saving initiatives, fostering employee development, and ensuring customer satisfaction. The organization firmly believes that its greatest asset is its employees, investing in their growth and well-being through a supportive working culture, continuous skills development, and a commitment to their overall wellness.

Initially, MiChem Dynamics was created to bridge the gap between laboratories and manufacturing industries, offering consultancy services to support organizations with interpreting laboratory results, conducting root-cause analysis, implementing customized corrective actions, and promoting continuous improvement. Over the years, MiChem Dynamics has expanded its service offerings to include training, consulting, auditing, coaching, and mentoring, making it a comprehensive provider in the scientific, agriculture, food and beverage, manufacturing, services, and mining industries.

Renowned for its professionalism, ethical practices, and unwavering commitment to excellence, MiChem Dynamics is the premier choice for consultancy, auditing, and facilitation services. The organization is dedicated to leading change and driving innovation, with a steadfast focus on improving lives through its diligent work ethic and unique approach.

At MiChem Dynamics, we are not just leading change; we are shaping the future.

Excellence Without Borders: MiChem Dynamics offers its renowned services globally, ensuring quality everywhere.

WHAT WE BELIEVE OUR VISION

Most see a world void of tolerance, everyday life is influenced by inappropriate business practices, ethnic tensions are rife, world class health care is reserved for the wealthy; unemployment has become a bigger pandemic than Covid and famine is ever increasing while food security is ever decreasing.

We do not see this world. We see a world where inspired people create opportunities, a world where every other human can thrive, be healthy, secure a future for their children, respect and appreciate our diversity.

We see a sustainable, safe, healthy and accessible food supply to all. We see a thriving South Africa, a country eager to move forward and share the success with the rest of the world.

THIS IS HOW MICHEM DYNAMICS MAKES THE DIFFERENCE:

01

WE SAVE LIVES:

We believe that a human life is of unmeasurable value, and the nutrition consumed can be the difference between life or death.

Combining our passion and expertise in various food safety, quality and laboratory initiatives, we bridge the gap between merely being compliant and truly saving lives.

We are committed to raise the standard of food safety and quality.

02

WE CHANGE LIVES:

Our success is measured by the way we touch the lives of our employees, our customers, and our business partners.

Our business endeavors to heal, give hope and enable humans to achieve more than they ever thought could be possible.

03

WE CREATE A BETTER FUTURE:

We ensure opportunities for more people to become contributing members of society, filled with optimism and hope for the future for all, old and young alike.

We look our children in the eyes with pride, knowing that our legacy will persist, our values will endure, and the process of realising our vision touched many lives.

04

WE FIGHT INEQUALITY:

We believe that all humans are created equal.

Regardless of race, gender, sex, marital status, ethnic or social origin, colour, sexual orientation, age, disability, religion, conscience, belief, culture and language, we are part of the human family and we work together as a team to achieve a common goal.

We serve our employees, our customers and our business partners by holding hands as a family.

WHAT IS IMPORTANT TO US OUR VALUES

LOVE

Love, Belonging and Safety for our team, clients and society drives us.

Love is our highest value. At the heart of our strength in the market is that we practice love as a team.

For us love reflects:

- Letting go of judgement of each other's and our clients.
- We don't expect perfection from each other. For us, realness matters most.
- Love means that we accept, celebrate & make space for each other's differences and that we celebrate the unique experience that we all bring to the table.
- Love means that every member of the team has a voice that can be safely expressed.

FAMILY

Our work keeps families safe and healthy throughout the world, including our own.

FAMILY SITS AT THE HEART OF ALL WE DO.

We believe that healthy, loving, safe families are at the foundation of healthy societies.

By honouring family, we strengthen the social bonds that make up the societies we are part of.

A healthy family facilitates the freedom to fully be who we are and to give expression to our whole selves without fear of judgement, exclusion and rejection.

EMPATHY, COMPASSION & RESPECT

The world can be harsh and uncompromising. We are not.

Judgement is corrosive. It does not create safe spaces in which we can be safe and fully ourselves. When we are not fully ourselves, the world loses out on the ideas and the ideals we have to offer.

We observe empathy and compassion by recognising that we are human and that we all hurt and we all make mistakes. We see each other through the lens of our common humanity.

Respect is the currency of the relationships we create with each other and with our clients.

INTEGRITY

We do the right thing, especially when it is hard and when no one is looking. In doing this we cultivate trust in our brand and in our people.

The work we do is about keeping people well and keeping them alive.

COURAGE

We honour our values and the integrity of our brand even when it is unpopular.

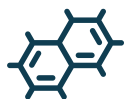

We challenge the status quo when our mission is compromised and we strive to raise the standards in the industry.

SERVANT LEADERSHIP

We lead by serving each other, our clients and the public. By practicing our values, we offer our example as the most powerful influence we have.

Leadership is not about a job description. It is about the example we give others, and it is about the safety we create for them to bring their best to shine.

MEET THE TEAM

THE LEADERSHIP TEAM

SANTIE VAN NIEKERK

CO-FOUNDER AND DIRECTOR

With well over 20 years' experience in her field of expertise, Santie van Niekerk has achieved recognizable milestones as a modern era professional. She holds a Baccalaureus Degree in Biomedical Technology and Total Quality Management (TQM) from Tshwane University of Technology and University of South Africa, respectively. In addition, she is a well-established mentor, coach and facilitator of different Leadership Programs to managers and leaders in the scientific, agriculture, food and beverage, manufacturing, services and mining industries. Furthermore, Santie has an illustrious career experience in the medical, food and environmental laboratory industry fields analysis, testing and management. Her insight in analysis, practical experience in industry trends and compliance has led her to be a well established facilitator, auditor and management system expert in ISO/IEC 17025, ISO 15189, ISO/IEC 17020 and ISO 9001. Her passion in management systems has ardently defined her as one of the best in her field of expertise.

Santie is a director and co-founder of MiChem Dynamics (Pty) Ltd and VGL Dimensions (Pty) Ltd. Her intention is to promote professionalism and passion by industry leaders and managers and also to provide tools to discover their own leadership potential. Santie strives by her lifelong moto to create healing organisations in order to save lives, change lives and to create a better future with her contributions.

VINAY MOODLEY

CO-FOUNDER AND DIRECTOR

Having been a hands-on leader in multiple disciplines of laboratory management systems, Vinay Moodley has crafted well over 15-year career skills from national and international organisations in the field of his expertise. He obtained a Bachelor of Science Degree in Microbiology & Biochemistry from the University of Kwazulu-Natal. Vinay's assorted achievements range from consulting at numerous laboratories world-wide to achieving various laboratory management systems accreditations. His drive for excellence in implementation of laboratory management systems has led him to be one of the best ISO/IEC 17025 and ISO 15189 facilitator, auditor and an expert. He is known for his down-to-earth approach to his professional career with a vast knowledge to share.

Vinay is a director and co-founder of MiChem Dynamics (Pty) Ltd and VGL Dimensions (Pty) Ltd. These two companies he helped to conceptualize and establish in order to fulfil his philosophy of service excellence, respect and a vision to promote laboratory management systems that will save lives, change lives and create a better future. He provides management and technical leadership to more than 12 different types of professional qualifications in the two companies he owns. A true family man at heart who lives with the values of honesty, accountability and integrity.

MICHEM DYNAMICS SCIENTIFIC SERVICES

UNLOCKING EXCELLENCE IN YOUR ORGANISATION

We specialize in providing an array of comprehensive scientific services tailored to meet your unique needs. With a client-centric approach and team of experts, we seamlessly integrate our scientific knowledge across various industries, ensuring your needs are guided by the latest advancements in international standards, technology, and methodology.

TESTING AND CALIBRATION LABORATORIES (ISO/IEC 17025), MEDICAL LABORATORIES (ISO 15189) AND GOOD LABORATORY PRACTICES (GLP)

In the realm of Testing and Calibration Laboratories, Medical Laboratories and Good Laboratory Practices (GLP) compliance facilities, precision is not just a goal; it's a necessity. At MiChem Dynamics, we bring a wealth of experience and a commitment to excellence, ensuring that your laboratory operates at the highest standard, conforming to ISO/IEC 17025, ISO 15189 and GLP requirements.

CONSULTING

Navigating the complex landscape of ISO/IEC 17025, ISO 15189 and Good Laboratory Practices (GLP) compliance is our expertise. We guide you seamlessly through the process, from initial assessment to implementation, guaranteeing that your laboratory not only meets but surpasses international requirements.

Our consulting services include:

- Start-up and running cost analysis
- Quality management system development and implementation
- Quality assurance retainers
- Staff-to-workload analysis
- ISO/IEC 17025, ISO 15189, GLP Document template pack
- Management system review and updates
- Method development, validation and verification
- Operations efficiency and optimisation

AUDITING

We understand the critical role compliance plays in your laboratory's success. Our auditing services are meticulously designed to ensure that testing and calibration laboratories not only meet but consistently exceed ISO/IEC 17025, ISO 15189 and Good Laboratory Practices (GLP) standards.

Our auditing services include:

- GAP audits / Readiness audits
- Internal audits
- In-house laboratory audits

TRAINING

MiChem Dynamics offers an extensive array of comprehensive training courses tailored to meet the demanding standards of ISO/IEC 17025, ISO 15189, and GLP (Good Laboratory Practices). Our training programs empower laboratory professionals with the knowledge and skills necessary to navigate and excel within these internationally recognized frameworks.

We offer a variety of laboratory training courses, including:

- ISO/IEC 17025:2017 Laboratory Quality Management System (LQMS) Implementation
- ISO 15189:2022 Laboratory Quality Management System (LQMS) Implementation
- Internal Auditing in the laboratory (based on ISO 19011 and ISO/IEC 17025:2017)
- Internal Auditing in the laboratory (based on ISO 19011 and ISO 15189)
- Root-cause analysis and Corrective Actions
- Risk management in the laboratory environment
- Laboratory Management and Leadership
- Method validation, Verification and Uncertainty of Measurement
- Basic laboratory techniques
- Statistical process control and analysis
- Understanding and implementing OECD principles towards GLP compliance
- And Many More!

Led by industry experts with years of practical experience, our training sessions combine theoretical insights with hands-on exercises, providing participants with practical tools and strategies to implement best practices effectively. With MiChem Dynamics, professionals can confidently embark on their journey towards excellence and compliance in the dynamic landscape of laboratory operations.

THE MICHEM DYNAMICS LABORATORY CONTINUOUS DEVELOPMENT MEMBERSHIP PROGRAM (LCDMP)

At MiChem Dynamics, we are more than just consultants, auditors, and facilitators in the Scientific Services industry. We are passionate about sharing our knowledge to advance our mission: saving lives, changing lives, creating a better future, and fighting inequality.

Our commitment to these values drives us to offer the MiChem Dynamics Laboratory Continuous Development Membership Program (LCDMP), an elite, complimentary resource designed to empower the global scientific community with the latest and most advanced information.

WHY JOIN LCDMP?

- **Exclusive Content:** Gain access to an extensive library of Recorded Webinars, Articles, Toolbox talks, and Upcoming Events.
- **Professional Development:** Enhance your knowledge and skills through continuous learning opportunities, helping you and your team stay ahead in the competitive scientific industry.
- **Access to Expertise:** Benefit from direct access to MiChem Dynamics' team of seasoned professionals who provide valuable insights and practical advice to help you navigate complex laboratory challenges.
- **Continuous Improvement:** Foster a culture of continuous improvement within your organization by staying updated with the latest advancements and innovative approaches in the scientific industry.

HOW TO JOIN

The LCDMP can be accessed through our website www.michemdynamics.com. To get started, simply complete a one-time registration process by creating a unique username and password. Your registration will be reviewed, and upon approval, you will be granted access to our extensive collection of resources.

OUR VISION

We sincerely hope that the LCDMP will become an invaluable asset to you and your laboratory, helping you achieve success and excellence in your scientific endeavors. Together, we can make a significant impact in the world of science and beyond.

Explore our comprehensive Scientific service offerings on our website www.michemdynamics.com or reach out to Santie van Niekerk at santie@michemdynamics.com or Vinay Moodley at vinay@michemdynamics.com for more information.

OTHER SCIENTIFIC SERVICES:

REFERENCE MATERIAL PRODUCERS (ISO 17034), PROFICIENCY TESTING SCHEMES (ISO/IEC 17043), MEDICAL DEVICES (ISO 13485) AND BIOBANKING (ISO 20387)

COMPREHENSIVE TRAINING PROGRAMS

At MiChem Dynamics, we offer comprehensive training programs designed to equip professionals with the knowledge and skills necessary to meet international standards across various scientific fields. As industry leaders, our training covers ISO 17034, ISO/IEC 17043, ISO 13485, and ISO 20387, ensuring your organization adheres to the highest quality and compliance benchmarks.

Our training on ISO 17034 focuses on the production of reliable and high-quality reference materials, ensuring their integrity and consistency in testing and calibration laboratories. For ISO/IEC 17043, we provide in-depth knowledge on implementing effective proficiency testing schemes, crucial for validating laboratory performance and ensuring accurate results.

In the medical device sector, our ISO 13485 training equips participants with the expertise needed to develop and maintain a quality management system that meets stringent regulatory and customer requirements. This includes risk management, design and development controls, and supplier management.

Our ISO 20387 training is tailored for biobanking professionals, covering the establishment and management of biobanks that comply with international standards. Participants will learn about quality management systems, ethical and regulatory considerations, and best practices for sample collection, processing, and storage.

- SANS 10049,
- ISO 22000,
- FSSC 22000,
- BRCGS,
- GFSI,
- FSA,
- Other customer specific requirements.

CONSULTING

At MiChem Dynamics, we specialize in navigating the complex landscape of food safety regulations, standards, and customer-specific requirements. From initial assessment to implementation, we ensure that your facility not only meets but surpasses these requirements.

Our consulting services include:

- Food safety management system Development and Implementation
- Food safety management system Maintenance
- Food safety management system Review and Updates
- Food safety management system Document template packs
- Food Science and Technology Guidance
- Regulatory Advisory Services
- Risk Assessments
- Certificate of Acceptability (COA), based on Regulation 638 of 2018 guidance

AUDITING

At MiChem Dynamics, we offer professional, transparent, and ethical food safety auditing services designed to help you comply with legislative frameworks, certification standards, and customer requirements. Our experienced auditors are committed to providing you with clear and actionable insights to elevate your food safety practices.

Our auditing services include:

- GAP audits / Readiness audits
- Internal audits
- Supplier audits
- Retail store inspections and audits
- Restaurant and kitchen hygiene audits
- PRP audits (SANS 10049 or ISO/TS 22002-x)

TRAINING

At MiChem Dynamics, we provide a comprehensive range of training courses tailored to meet industry standards and needs. Our carefully developed programs equip food safety and quality professionals with the expertise required to thrive within globally acknowledged frameworks.

Guided by seasoned industry experts with extensive practical experience, our training sessions blend in-depth theoretical knowledge with hands-on exercises, offering participants effective tools and strategies for implementing best practices in their organizations.

We offer a variety of laboratory training courses, including:

- Basic Food safety (as per Regulation 638)
- HACCP Implementation (based on SANS 10330:2020)
- Good Manufacturing Practices (GMP) / Pre-requisite Programmes (PRP)
- ISO 22000:2018 Implementation
- FSSC 22000 Version 6 Implementation
- Internal Auditing of Food Safety Management Systems (FSMS)
- Advanced HACCP (based on ISO 22000)
- Vulnerability Assessment and Critical Control Point (VACCP) and Threat Assessment and Critical Control Point (TACCP)
- Root-cause analysis and Corrective action
- Sampling and Sampling techniques
- HACCP for Supervisors
- Allergen Management
- And Many More!

With MiChem Dynamics, food safety and quality professionals can confidently pursue their journey towards excellence and compliance. Our comprehensive training courses not only provide the necessary knowledge and skills but also inspire a proactive approach to continuous improvement. By partnering with us, professionals are empowered to make meaningful contributions to their organizations and to the broader food industry, ensuring the highest standards of safety and quality for consumers worldwide.

THE MICHEM DYNAMICS LABORATORY FOOD SAFETY DEVELOPMENT MEMBERSHIP PROGRAM (FSCDMP)

At MiChem Dynamics, we are more than just consultants, auditors, and facilitators in the Food Safety industry. We are passionate about sharing our knowledge to advance our mission: saving lives, changing lives, creating a better future, and fighting inequality.

Our commitment to these values drives us to offer the MiChem Dynamics Food Safety Continuous Development Membership Program (FSCDMP), an elite, complimentary resource designed to empower the global community with the latest and most advanced information.

WHY JOIN FSCDMP?
